

KOOCO newflush **TORNADO**

Ultra quiet, Ultra efficient, Ultra clean.

The Newflush system, it improves exhaust efficiency by creating a powerful water vortex.

This technology ensures a significant reduction in noise, a lower water consumption and a dynamic cleaning action that results in a lower need for detergents. The elimination of the bride creates a continuous edging that further facilitates cleaning operations as it eliminates the spaces where dirt usually tends to nest. Thus Newflush improves both the comfort of use and the environmental sustainability

Just use less detergent to make toilet cleaning more intensive, without splashing, and to minimize noise.

Installation of sewage pipe

DIAMOND GLAZE

Diamond glaze is a total barrier against bacteria, an innovative antibacterial enamel which is applied directly on the ceramic during firing. The enamel is capable of ensuring a lasting and definitive protection against germs and bacteria.

Higher quality for the innovative enamel applied directly on the ceramic during firing. The surface appears to be perfectly smooth, not allowing dirt and limestone to settle. This ensures durable brilliance, pleasing to the touch, high protection from scratches, abrasions and from external agents. The extreme ease of cleaning also allows the use of a lower consumption of water and detergents, respecting the environment.

Water-repellent:
Water slides fast on
the surface.

Easy and quick
cleaning.

Reduced water
consumption and
cleaning detergents.

Impact, scratch
and abrasion
resistance.

WATERPROOF

DURABLE

RESISTANCE

The surface is
perfectly smooth.

Greater surface
brilliance.

High resistance to
external agents,
longer durability.

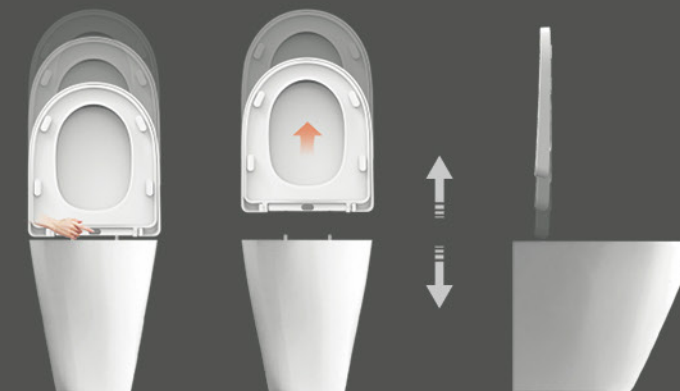

EASY TO INSTALL

The new quick-release device allows to take the toilet seat off in a simple manner, making it easier to clean.

SOFT CLOSE

Thermosetting seat cover with soft closing system.

SAVE WATER

The water for washing hands will be stored in the toilet water tank for flushing the toilet, and water resources will be reused, making it more water-saving and environmentally friendly.
